

Answer Key

An advanced-level reading class, this course prepares you for university-level reading with a strategy-based approach, encouraging you to view reading English as a problem-solving process. Learners will develop targeted vocabulary, comprehension skills, and reading fluency with an enhanced focus on critical thinking and academic skills. You will improve your reading speeds through the completion of several timed reading practice tests. By the end of the class, you will achieve a reading speed of 190-230 words per minute with 60-80% comprehension. You will continue to build your technological literacy by completing tasks using online spaces, such as Blackboard, to enhance your participation strategies for academic activities.
